*** OUR MESSAGE ***

Your generous contribution for **The Bash** helps FARA continue the momentum needed to outpace the debilitating effects of this progressive neuromuscular disease.

Through funding collaborative research, FARA's goal is to develop a cocktail treatment to first slow and stop the progression of Friedreich's Ataxia (FA) as well as develop therapies aimed at overall disease reversal. While the development of treatments is a labor intensive and costly process, FARA prides itself on facilitating this critical work with timely strategic funding and collaboration. Your support empowers FARA to lead research progress proactively.

Please accept our deepest gratitude on behalf of the rest of the FARA community, which includes all of those with FA, all the FA families and scientists. Thank you from the bottom of our hearts for your generosity and for being an active teammate in our effort to treat and cure FA!

Pete, Francine, Brendan & Eilish Welsh
